

McLaren Greater Lansing Hospital

Location: Lansing, MI

Client: McLaren Health Care/MSU

Construction Manager: Barton Malow/Christman JV

Architect: Harley Ellis Devereaux (HED)

This 240-bed hospital is part of a larger, state-of-the-art health care campus which includes a cancer centre, medical services building, and other facilities to support health care, education and medical research. The campus is expected to be open to the public in early 2022. sq. ft. of new space and renovate an additional 100,000 sq. ft. of the existing hospital. MGL is expected to achieve a LEED® Silver certification for design excellence and sustainability and set for completion in autumn 2023.
